

ENVIRONMENTAL POLICY

ENOVA Contracting and Trading LLC (ENOVA) is committed to upholding and complying with all the applicable local environmental regulations and minimizing its impact on the environment it operates in.

ENOVA will continually review and improve its environmental processes and systems with special emphasis on the following:

- Establishing and maintaining the requirements of the ISO 14001:2015 standard.
- Complying with all applicable legal, statutory and regulatory environmental requirements.
- Preventing/minimizing pollution in all its activities.
- Training all of its staff on its environmental program and empowering them to contribute and participate.
- Continually improving over time by striving to measure its environmental impact and by setting goals to reduce these impacts each year
- Maintaining effective internal and external communication including dissemination of its Environmental Policy to its employees, Customers, interested parties and making it available to public on demand.
